

Suat Demirel

Unity Developer | C#

Espoo, Finland | msdemirelfi@gmail.com | msdemirel.github.io | github.com/msdemirel | linkedin.com/in/suat-demirel

PROFILE

Unity developer working in C#. I have built gameplay features in a production codebase at Landell Games, shipped a title to Steam, and worked as both producer and programmer at Espoo Game Lab. Since early 2026 I have run Zumrut Labs, teaching beginners to make and publish games. Looking for a Unity developer role in games, simulation or interactive apps.

SKILLS

Gameplay (C#): character controllers, state machines, save/load, inventory, dialogue, object pooling, UI
Architecture: ScriptableObjects, events, design patterns (State, Observer, Singleton), Unity Test Framework
Unity tools: Animator, NavMesh, Cinemachine, Timeline, Input System, URP, Profiler for performance optimisation
Platforms: PC/Steam, WebGL, mobile builds
Workflow: Git, GitHub, Unity Version Control, Jira, Trello, Notion, Figma, Scrum
Languages: Turkish (native), English (fluent), Finnish (basic)

GAME DEVELOPMENT EXPERIENCE

- Game Programmer**, Landell Games (internship, then part-time) 2023–2025
- Wrote gameplay, AI and UI code in C# inside a shared Unity codebase.
 - Fixed and debugged bugs, worked on performance and optimisation, and helped with game testing and QA.
 - Worked in Scrum sprints with designers and artists, using Git, Unity Version Control and code review.
- Game Producer & Programmer**, Espoo Game Lab Mar–Sep 2024
- Planned the scope and schedule of the team's game and wrote gameplay code for it at the same time.
 - Ran day-to-day coordination between design, art and programming in an on-site team.

GAME JAMS

- Took part in game jams, building a playable game from scratch under a fixed deadline.

TEACHING & BUSINESS

- Founder & Unity Instructor**, Zumrut Labs 2026–present
- Teach Unity and C# to beginners who have never programmed before.
 - Built multi-week courses on 2D skeletal animation, a 3D FPS and publishing to WebGL. Every course ends with the student's own playable build online.
 - Run the business side myself: pricing, scheduling, marketing and tracking student progress.
 - Also teach one-to-one Unity and C# lessons on Preply.

VOLUNTEERING

- General Secretary**, Finpolar Nuoriso 2026–present
- Coordinate meetings, communications and the yearly event calendar of a Finnish-Turkish youth organisation, together with partner organisations.

EDUCATION

- BBA, Business Information Technology (Game Production)**, JAMK University of Applied Sciences 2020–2024
- Economics**, Erciyes University 2013–2016
